

Choose a career you can bank on.

UniSA's Bachelor of Applied Finance program prepares graduates for work in a range of roles across a variety of organisations and sectors. During your time at UniSA you will have developed the expertise to move into the exciting world of finance with options as broad as international business, foreign currency trading, risk management, corporate treasury, financial planning, financial regulation, or asset and debt management. Most recently, employment opportunities in areas related to Applied Finance have been stimulated, for instance expansion of superannuation schemes.

As an Applied Finance graduate, your skills will be relevant to any organisation that has significant cash holdings or cash flows. More recently, there has been growth in employment opportunities in areas related to Applied Finance such as with the rapid expansion of the superannuation industry and allied financial services.

Which Occupations?

Starting in a graduate entry position, this degree gives you the opportunity to progress towards roles in management. Titles may include; commercial manager, financial adviser, financial analyst, finance dealer/ broker, chief financial officer, financial controller, lending manager, investment banker or financial manager. Applied Finance graduates may establish their own business providing consultancy services and advice to a range of organisations, individuals and financial institutions.

- earn credit for an elective course towards their degree

Work Integrated Learning

The Finance program offers a range of work-related services, activities and benefits in collaboration with the School of Commerce and industry such as: technical seminars, participation in career forums and expos. They seek to assist students in their assimilation between the study and work environment enabling students to be 'career ready' on completion of their study program.

In consultation with Career Services at the University and following feedback and input from financial services professionals, Applied Finance students undertake group presentations and peer assessment of specific finance content. This has greatly assisted students in improving their confidence in undertaking employment interviews and interacting in class, with their peers and colleagues.

Career Management Skills within Curriculum

Career management skills have been embedded throughout the curriculum. Topics covered include: resume writing and market research.

Professional Recognition and Accreditation

Applied Finance graduates satisfy the educational requirements for membership of the Financial Services Institute of Australasia (FINSIA).

Completion of specific courses in the Applied Finance program also provides for Tier 1 level recognition by the government corporate regulator, the Australian Securities and Investments Commission (ASIC).

Prizes/Awards and Scholarships

AMP Financial Planning Scholarship: A significant cash prize of \$5,000.

Recipients of each Scholarship are also provided invaluable mentoring opportunities.

School of Commerce Honours Scholarship \$10,000 x 6 p/a.

5 Finance specific individual prizes and awards.

Anita Constanzo

Year Graduated: 2003
Job Title: Associate Advisor
Employer: 360Private

“The Applied Finance degree gives you the opportunity to specialise in a vast range of placements within the finance discipline. If you're unsure of what may be of interest to you or if finding a job is proving to be difficult, then approach various businesses and do a week or two of work experience. This will not only help you see what's involved in a particular finance sector but may open the door to opportunities.”
