## Academic English (AE)

The AE program is for students planning to study at an Australian education institution. The higher levels of AE are designed for students who need to meet the English language admission requirement of the University of South Australia (UniSA), the South Australian Institute of Business and Technology (SAIBT), Le Cordon Bleu (LCB) or University College London (UCL).

Students applying directly to these institutions will not need to take the IELTS or other English language test if they successfully complete the appropriate AE level program.

Academic English develops the skills necessary for academic study, such as listening to lectures and note-taking, planning and writing essays and reports, and taking part in group discussions and spoken presentations.

Students will normally need to complete 10 weeks of study for every 0.5 improvement needed in the overall IELTS score. Additional weeks may be required if a student's score in one IELTS band is lower than their overall score. This will apply only if a significant improvement in this band score is needed for academic progression.

## Business English (Mixed Program)

Business English (Mixed Program) is offered by CELUSA and is designed for students who have an IELTS score of 5.0 (or equivalent) and wish to study one academic course at SAIBT at the same time as completing a Business related English language program (a total of 20 hours per week). Students can study either a course from the Certificate IV or a course from the Diploma of Business. Business English (Mixed Program) can be completed across three SAIBT semesters. Semester one of the program requires students to complete the Academic course. Upon successful completion, students go on to complete the remaining seven academic courses over the next two SAIBT semesters.

For further information relating to Business English (Mixed Program), please contact CELUSA Admissions.
