

## UniSA Law School DVD Transcript – Law Library

We have one of the best electronic libraries on offer anywhere in Australia. Students enrolled at UniSA will have fantastic access to the law collection, most of it is available online in full text, 24/7, from anywhere in the world.

The law collection is absolutely phenomenal, every single case, legislation we need is up there already, and it saves us going through stacks and stacks of books trying to find it. The collection, it's the best I have ever seen, it's amazing, and I can access it from home as well, which is a great thing as a working person.

They also have the opportunity to make an appointment to see one of the librarians there, and we can go through with them and show them how to do their research. They also have the opportunity to ask for help online via email and real-time chat.
