**DEFINITIONS:**

Area + Catalogue Number

A 4-letter area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses using this code.

Class Number

Every class at UniSA has a unique number (e.g. **24813**). You use this number to enrol. Both the **enrolment class** and **related classes** have class numbers.

Enrolment Class

This can be a **lecture (LEC)**, **tutorial (TUT)**, **workshop (WSH)** or **practical (PRA)**, to name a few examples. It is the first class you must enter when you are enrolling.

Related Classes  
(Non-Enrol Classes)

These are other required components of the course, and are in addition to the **enrolment class**. They can be one of the following class types - **lecture**, **tutorial**, **workshop** or **practical**, to name a few. In most cases you will have a choice (e.g. 1 tutorial to be chosen from 7). However, in some courses, once you select the **enrolment class** you are automatically enrolled (**auto-enrol**) in a related class (e.g. a particular tutorial or practical at a particular time).

Study Period	Area	Catalogue Number	Course	Enrolment Class	Notes
SP2	CIVE	5061	<a href="#">Global Water Systems 2 – Engineered Water Cycle</a>	LEC or EXT	Available in on-campus or external mode
				LEC: 23327 EXT: 25020	
SP2	CIVE	5063	<a href="#">Water Resources Planning and Management</a>	LEC or EXT	Available in on-campus or external mode
				LEC: 23181 EXT: 24977	
SP5	CIVE	5060	<a href="#">Global Water Systems 1 – Natural Water Cycle</a>	LEC or EXT	Available in on-campus or external mode
				LEC: 51866 EXT: 54529	
SP5	CIVE	5062	<a href="#">Water Resources and Society</a>	LEC or EXT	Available in on-campus or external mode
				LEC: 52741 EXT: 54360	

**NOTES:**

1. The table above shows the full list of **core** courses which are usually studied across one year part-time. Full-time students who want to complete the Graduate Certificate in one study period can choose 2 core courses plus 2 coursework electives from other university postgraduate programs with the approval of the Program Director
2. Students should enrol in all courses for both study periods (Study Period 2 & 5) when enrolments commence.
3. **Students who completed Hydrology and Water Resources Advanced Topics 1 (CIVE 5036) or Hydrology and Water Resources Advanced Topics 2 (CIVE 5037) successfully in 2010, should NOT undertake electives Climate Change and Adaptation Strategies in Water and Environmental Management (CIVE 5074) or Sustainable Irrigation Management (CIVE 5075). Course content will be similar.**
