**DEFINITIONS:**Area + Catalogue Number

A 4-letter area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses using this code.

Class Number

Every class at UniSA has a unique number (e.g. **24813**). You use this number to enrol. Both the **enrolment class** and **related classes** have class numbers.

Enrolment Class

This can be a **lecture (LEC)**, **tutorial (TUT)**, **workshop (WSH)** or **practical (PRA)**, to name a few examples. It is the first class you must enter when you are enrolling.

Related Classes  
(Non-Enrol Classes)

These are other required components of the course, and are in addition to the **enrolment class**. They can be one of the following class types - **lecture**, **tutorial**, **workshop** or **practical**, to name a few. In most cases you will have a choice (e.g. 1 tutorial to be chosen from 7). However, in some courses, once you select the **enrolment class** you are automatically enrolled (**auto-enrol**) in a related class (e.g. a particular tutorial or practical at a particular time).

Study Period	Area	Catalogue Number	Course	Enrolment Class	Related Class	Related Class	Notes
<b>YEAR 1</b>							
SP2	ENVT	5007	<a href="#">Seminar in Sustainability</a>	LEC	WSH		
				24993	24992

SP5	<a href="#">Elective</a>			Refer to the program page for the list of electives: <a href="http://programs.unisa.edu.au/public/pcms/Program.aspx?pageid=372&amp;sid=382&amp;tid=473&amp;y=2012">http://programs.unisa.edu.au/public/pcms/Program.aspx?pageid=372&amp;sid=382&amp;tid=473&amp;y=2012</a>			

The Masters program (Natural Resource Management) requires the completion of 54 units of courses. Students can complete either: a) four core courses (18 units), Environmental Research Project 1 and Environmental Research Project 2 (18 units), and four Natural Resource Management electives (18 units), OR b) four core courses (18 units), four Natural Resource Management electives (18 units), and four electives from the Master of Environmental Management and Sustainability (Water Management).

**YEAR 2**

SP2	ENVT	5025	<a href="#">Environmental Research Project 1</a>	WSH			
				22136			
SP5/SP2	ENVT	5026	<a href="#">Environmental Research Project 2</a>	DST			
				SP2: 25033 SP5: 54603			

**NOTES:**

1. Students should enrol in all courses for both study periods (Study Period 2 & 5) when enrolments commence.
2. Students who have previously completed Coastal Environments (BIOL 4001) should not enrol in elective Coastal Management EART 5018 as content is similar)
3. Students undertaking Environmental Research Projects 1 & 2 must have prior approval from the Program Director. Normally this will require a GPA of 6 or greater and demonstrated ability to undertake a research project. Students will normally enrol in these courses in their second year of study. Research topics will normally be identified earlier. Students must successfully complete Environmental Research Project 1 before they can commence Environmental Research Project 2
4. Students who completed Hydrology and Water Resources Advanced Topics 1 (CIVE 5036) or Hydrology and Water Resources Advanced Topics 2 (CIVE 5037) successfully in 2010, should NOT undertake electives Climate Change and Adaptation Strategies in Water and Environmental Management (CIVE 5074) or Sustainable Irrigation Management (CIVE 5075). Course content will be similar.
