DEFINITIONS:

Area + Catalogue Number

A 4-letter area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses using this code.

Class Number

Every class at UniSA has a unique number (e.g. **24813**). You use this number to enrol. Both the **enrolment class** and **related classes** have class numbers.

Enrolment Class

This can be a **lecture (LEC)**, **tutorial (TUT)**, **workshop (WSH)** or **practical (PRA)**, to name a few examples. It is the first class you must enter when you are enrolling.

Related Classes
(Non-Enrol Classes)

These are other required components of the course, and are in addition to the **enrolment class**. They can be one of the following class types - **lecture**, **tutorial**, **workshop** or **practical**, to name a few. In most cases you will have a choice (e.g. 1 tutorial to be chosen from 7). However, in some courses, once you select the **enrolment class** you are automatically enrolled (**auto-enrol**) in a related class (e.g. a particular tutorial or practical at a particular time).

| Study Period | Area | Catalogue Number | Course | Enrolment Class | Related Class | Related Class | Notes |

The Masters program (Water Management) requires the completion of 54 units of courses. Students can complete either: a) four core courses (18 units), Environmental Research Project 1 and Environmental Research Project 2 (18 units), and four Water Management electives (18 units); OR b) four core courses (18 units), four Water Management electives (18 units) and four electives from the Master of Environmental Management and Sustainability (Natural Resource Management) (18 units).

YEAR 2

| | | | | | | | |
|---------|------|------|--|--------------------------|--|--|--|
| SP2 | ENVT | 5025 | Environmental Research Project 1 | WSH | | | |
| | | | | 22136 | | | |
| SP5/SP2 | ENVT | 5026 | Environmental Research Project 2 | DST | | | |
| | | | | SP2: 25033 SP5: 54603 | | | |

NOTES:

1. Students should enrol in all courses for both study periods (Study Period 2 & 5) when enrolments commence.
2. **Students who completed Hydrology and Water Resources Advanced Topics 1 (CIVE 5036) or Hydrology and Water Resources Advanced Topics 2 (CIVE 5037) successfully in 2010, should NOT undertake electives Climate Change and Adaptation Strategies in Water and Environmental Management (CIVE 5074) or Sustainable Irrigation Management (CIVE 5075) in 2011. Course content will be similar.**
3. Students undertaking Environmental Research Projects 1 & 2 must have prior approval from the Program Director. Normally this will require a GPA of 6 or greater and demonstrated ability to undertake a research project. Students will normally enrol in these courses in their second year of study. Research topics will normally be identified earlier. Students must successfully complete Environmental Research Project 1 before they can commence Environmental Research Project 2
