### DEFINITIONS:

Area + Catalogue Number

A 4-letter area code plus a 4-digit catalogue number make up the course code, eg **BIOL 1033**. You can search for courses by using this code.

Class Number

Every class at UniSA has a unique number (eg **24813**). You use this number to enrol. Both the **enrolment class** and **related classes** have class numbers.

Enrolment Class

This can be a **lecture (LEC)**, **tutorial (TUT)**, **workshop (WSH)** or **practical (PRA)**, to name a few examples. It is the first class you must enter when you are enrolling.

Related Classes  
(Non-Enrol Classes)

These are other required components of the course, and are in addition to the **enrolment class**. They can be one of the following class types - **lecture**, **tutorial**, **workshop** or **practical**, to name a few. In most cases you will have a choice (eg 1 tutorial to be chosen from 7).

However, in some courses, once you select the **enrolment class** you are automatically enrolled (**auto-enrol**) in a related class (eg a particular tutorial or practical at a particular time). The class number will be listed in the Auto-enrol column.

# INSTRUCTIONS

## CLASSES

1. The classes listed below are the best options for your program.
2. View the course homepage by clicking on the links below. Click on the Class Timetable link on the course homepage to view the day and time of the classes listed for the course.
3. Read the notes listed against the classes on the timetable. If the note states that the class is allocated to a degree other than IBNF then **do not** select the class for enrolment in the first instance.

## ENROLMENT

1. Once you are ready to enrol into your courses ensure that you have selected the correct Study Period.
2. Once you have selected a course, start enrolling with the enrolment class first and then select a related class as required.
3. Students who are enrolling over 2 years of study (i.e. 2 courses from 1<sup>st</sup> year and 2 courses from 2<sup>nd</sup> year) **will** encounter enrolment clashes, as the timetables are designed to be clash-free over one year of study. If this occurs you will need to complete an Override Form to inform the school timetabler of your problem.
4. If classes become full you will need to complete an Override Form to inform the school timetabler of your problem.
5. Note that completing an Override Form **does not** mean that you will definitely be granted your request. Ensure that you provide as much detail as possible in the Override Form.
6. **Note you will need to enrol in the whole year that is all SP2 and SP5 courses.**

**If you have any enrolment queries/problems after following these instructions please email the School Timetabler on [Katie.Bowring@unisa.edu.au](mailto:Katie.Bowring@unisa.edu.au)**

Study Period	Area	Caalogue Number	Course	Enrolment Class	Related Class	Related Class	Notes
SP2	FOSC	2001	<a href="#">Introductory Microbiology</a>	PRA	TUT		Please enrol into a Practical and you will be auto enrolled into the Lecture. You will then need to select a Tutorial
				23277	23274 23276		
SP2	BIOL	2014	<a href="#">Biochemistry N200</a>	PRA			Please enrol into a Practical and you will be auto enrolled into the Lecture.
				22019 22020 22021 22022			
SP2	BIOL	2035	<a href="#">Physiology N200</a>	PRA	TUT	CPR	Please enrol into a Practical and you will be auto enrolled into the Lecture. You will then need to select a Tutorial and Computer Practical.
				22132 22134 22385	22138 22002 22005	22008 22009 22012 22013	
SP2	HLTH	2001	<a href="#">Human Nutrition</a>	PRA	TUT		Please enrol into a Practical and you will be auto enrolled into the Lecture. You will then need to select a Tutorial.
				20929 20930 20931 20932 20933 20935 20936 20938 20939 20940	21975 21976		

SP5	FOSC	2002	<a href="#">Food Composition and Functions</a>	PRA	TUT	Please enrol into a Practical and you will be auto enrolled into the Lecture. You will then need to select a Tutorial.
				51158	51157	
SP5	FOSC	2003	<a href="#">Food Microbiology 201</a>	PRA	TUT	Please enrol into a Practical and you will be auto enrolled into the Lecture. You will then need to select a Tutorial.
				51153 51154	52095	
SP5	BIOL	2052	<a href="#">Lifespan Physiology and Biochemistry</a>	TUT		Please enrol into a Tutorial and you will be auto enrolled into the Lecture.
				51988 51989 51990		
SP5	HLTH	3001	<a href="#">Nutrition, Exercise and Weight Management</a>	TUT		Please enrol into a Tutorial and you will be auto enrolled into the Lecture.
				53968 53970 53971 53972 53973		

#### NOTES:

1. The table above shows the full list of courses to be taken by a student undertaking a full-time load solely in this year of the program.
2. Students enrol in all courses for both study periods (Study Period 2 & 5) at the beginning of the year.
3. Students undertaking less than a full time load AND students repeating courses in the previous year of the program MUST consult with their Program Director as to which courses they should enrol in during 2012.
