Your collection

Covers all the disciplines taught at UniSA.

*Significant depth* in the areas where UniSA has leading researchers.

Has over **700,000** books and print journals.

Includes books, videos, DVDs, journals, newspapers, models, kits and more!

- 160,000 ebooks
- 50,000 online journals
- 23,000 online course readings
- 480 databases

A rapidly expanding collection of electronic resources that can be accessed anywhere in the world.
E-books

- Digital preferred strategy
- Access to over 140,000 e-books
- Reading lists
- Usage barriers discuss with your ALS
**Welcome**

Handheld eBook readers - "Kindles" are available to borrow from the Library.

---

**What is an eBook?**

eBooks is an abbreviation for electronic books. They are electronic versions of print book formats, sometimes protected with a digital rights management system. eBooks can be read on computing devices (personal computers or smart phones) using a browser based application or a dedicated eReader device.

---

**eBooks file types**

Different vendors use different file formats including: the Amazon eBook standard, or (.amz), Adobe files (.pdf) and the ePub file (.epub) which is used by most eBook vendors. In addition to the way the file is organised internally, there is also Digital Rights Management (DRM) to deal with. Think of DRM on an eBook as a lock, with the eReader having the key to open the lock and display the file.

For example, vendors that use the ePub format have chosen different sorts of DRM to lock up their content. Apple and their iBook app use the ePub format, but wrap it up with their Apple-specific Fairplay DRM.

---

**Ask your Team**

For further information please contact the Academic Library Services team responsible for your Division.
